SiliconExpert
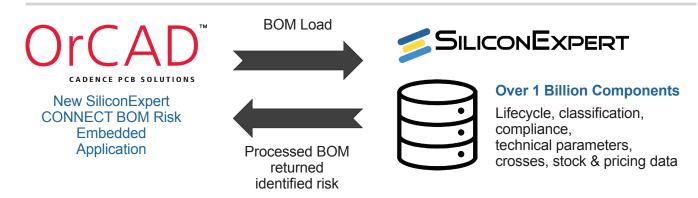

SE CONNECT BOM Risk
Embedded OrCAD Application

> **The SiliconExpert CONNECT BOM Risk Embedded Application is powered by 500+ engineers and experts;**

> **Centralizing and normalizing component data to ensure accuracy, mitigate risk, and save you time.**

> **Search over 1 billion components for cross references, lifecycle, parametric, obsolescence forecasts, regulation compliance and inventory data.**

- Make Informed Part Selection Decisions
- Avoid Obsolescence Risk
- Ensure Compliance

> **Bad data will result in product issues...**

Obsolete Parts

Compliance Issues
(RoHS, REACH, Conflict Mineral)

Inadequate Stock

...SiliconExpert keeps your data clean and allows you to stay one step ahead of the risks.

> **SiliconExpert CONNECT BOM Risk Embedded Application in OrCAD!**
